

Jesus said, "Let the little
CHILDREN
come to me,
and do not hinder them,
for the kingdom of heaven belongs to such as these."

MATTHEW 19:14

Three Rivers Christian School offers our community a completely state-licensed Early Childhood Education and Development Center. Our center was originally founded in 1966 under the name "Longview Christian Child Development Center" as a ministry of Northlake Baptist Church in response to a need for quality child care.

The Center serves children ranging in age from four weeks through twelve years with daily programs for infants, toddlers, pre-school and school age children. We seek to build strong partnership with families and our community in order to develop the full potential that God has created in every child.

CHALLENGING Our staff of well-qualified teachers is dedicated to helping students of all ages achieve their highest potential. We offer homework support for parents who would like their children to benefit from a little extra help. From holiday projects to summertime activities, a fun-loving spirit pervades our school age extended program. Enrichment classes are offered for those parents who would like a little extra for their students. Those classes have included foreign languages, guitar, and art and movement classes. Our instructors go out of their way to make the before-and-after program, as well as the summer program, an enjoyable, educational experience.

CARING Loving one another is central to the Christian background at Three Rivers Christian School Child Development Center. Our instructors believe that each child is a gift from God and created with unique personalities and special abilities that should be praised and nurtured. It is this sense of love for children that sets our program apart and has kept our student families loyal for generations.

KINDERGARTEN ENRICHMENT We are also pleased to provide before and after-school care for area Kindergarten students in half-day programs. We call this care “enrichment” because it is truly an added benefit to your child’s schoolday. Kindergarten curriculum is carried over in a warm and fun environment, helping your child to more easily transition into full-day school.
