Since 1966, Longview Christian School and Child Development Center has served the families of our area with loving care and quality Christian education for literally thousands of children. In 1996, a group of our school families joined together to form Cornerstone Community Christian School, offering grades 7 through 12 in a leased space at Kelso's North Gate City Church. In an effort to provide a permanent home with room for growth, these two schools merged in 2004 under the banner of Three Rivers Christian School. This united ministry now serves infants through high school seniors with an enrollment of 440 and a staff of 84. TRCS Online is the newest addition to the educational services offered by the Three Rivers Christian School Ministry.

## DISTANCE LEARNING

With TRCS Online, your student gains all the advantages of working with our staff of trained teachers while accessing the data from home. With individualized curriculum setup through the Alpha-Omega “Switched on Schoolhouse” curriculum, your student can master core subjects or a number of electives, and can even earn their high school diploma through TRCS Online.

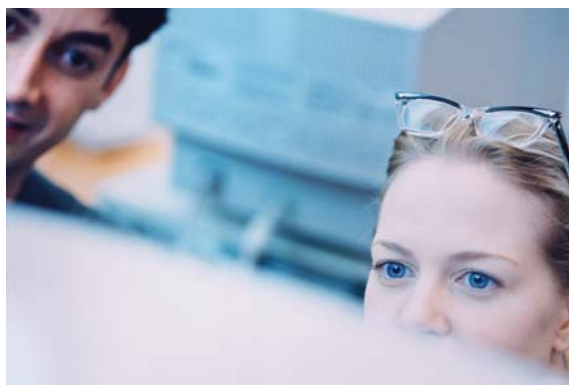

With Bible-based curriculum and true multi-media learning, students are engaged with the subject matter. Our TRCS teachers are available in “real time” office hours to assist students. Your student will complete schoolwork on a computer which is connected to the internet through a high speed connection. Teachers will grade the work remotely, offer personalized academic assistance, and monitor the student’s performance.

Students within driving distance of the campus can also take advantage of participating in our team sports, award-winning band program, art and drama classes. At TRCS, our goal is meet the Christian education needs of as many area families as possible.

## COURSE REMEDIATION

For students who are behind or struggling to gain mastery of certain subjects, TRCS Online offers an excellent opportunity for course remediation.

Based on their placement test results, the academic level of your student can be determined and class levels customized to meet their needs. If your student needs to catch up, we can create a customized class to help. Opportunities are also available for students who wish to pursue advanced courses in certain subjects.
